

Make your own farm

What you will need:

A4 paper

A pencil

Felt tip pens or pencils

Scissors

Print out the templates.

Fold them each in half so that there is a rectangle on one side and the animal on the other.

Cut around the animal shape through both sides of the paper so that both are the same shape. Don't cut along the animal's back.

Turn the folded paper over and draw the animal on the other side.

Colour in both sides.

Top tip – to make your animals extra strong, glue some card on the back.
